Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

In response to applicant's RDE filed on August 15, 2007. The following action is taken:

Claims 1, 2, 5-7, 9, 10 and 12-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Regarding claims 1 and 12, the specification fails to show or teaches the plurality of adders for adding each side of the first photo detection elements. The first and second difference signal producing means and the level adjusting means for adjusting the level of the second difference signal. Regarding claims 6, 9, 17 and 18. The specification does not disclose a subtracting step for subtracting a pre-pit signal component from the tracking error signal.

The drawings are objected to because the drawing do not shows the limitations as claimed such as the plurality of a first adders, second adders, subtracting a pre-pit component from a tracking error signal. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must

Art Unit: 2627

be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

In response to the rejection, applicant's representative is respectfully asked to identify the drawing that read on the claimed invention and the corresponding elements in order to clarify and overcome the 112 first paragraph rejection. Based on the disclosed invention, fig 8b could correspond to the claimed invention. However, the element as illustrated does not read on the claims as cited.

Any inquiry concerning this communication should be directed to NABIL Z. HINDI at telephone number (571) 272-7618.
